

# Is your bottom line being eroded by taxis, rentals and fleet cars?

## Join Flexicar – the cost effective business transport alternative.

Flexicar has a fleet of brand new cars, parked on a street near your business. As a member business, you and your staff can book cars by the hour, when you need them. They're perfect for getting to appointments, running errands and visiting clients.

Best of all, everything is included in Flexicar's low rates. You pay no finance charges, no petrol, no registration, no cleaning, no parking.

No ugly surprises and no sunk costs. **Over 80 cars in Melbourne alone!**

### HOW FLEXICAR WORKS

You just need to join your business as a member and register your staff members as drivers. You'll be sent your own smartcards, allowing you and your staff access to make bookings on any vehicle in the Flexicar fleet.

The next time you need to get somewhere, simply book online or over the phone – up to a minute before. Walk to the car, swipe your smartcard to open the doors and drive around for the length of your booking.

You then just return the car to its street park. A single, electronic invoice is sent at the end of each month, covering all your business bookings. We even bill by direct debit. So there's no paperwork. No queues. No hassles.

Flexicar is simplicity and flexibility on wheels – just click, swipe and drive.

## FLEXICAR'S FLEXIBLE BUSINESS PRICING

We have three economical plans for our business members, based on a monthly amount of pre-paid driving. The higher your monthly pre-paid driving purchase, the more attractive the rates become.

### From one of our 2,000 members:

"Flexicar has been great for our business and our staff. It provides convenience and flexibility for short trips that traditional hire companies are unable to provide, and allows our staff to book vehicles at short notice."
